

Dear Honorable FCC:

I am disheartened to hear of potential unjust actions against satellite radio programming. I am not familiar with FCC regulation regarding broadcasting and specifically satellite radio issues. However, it seems to me that if I am paying for the programming that I receive through my subscription, I am entiteled to recieve it without restriction.

Furthermore, I can tell you that I will be very upset if there are any successes in efforts to squash the freedom of this terriffic business enterprise to offer programing.

Respectfully,

Jonathan Hoch
